

Capture Me Again-

Verse 1-

She stole my heart, not long ago, now it's time for her
to play the thief again

Break into my heart, take just what you feel

Just to be alone with you is all I need

Take me as your prisoner, never set me free

Hook-

And capture me again, take me ransom from within

Even if we just pretend, to be captured again

Verse 2-

Memories, or fantasy, seems like that's all that we
have come to be

So take me back again, tempt me to give in

Incarcerate this passion that comes rushin' in

Take me as your prisoner, never set me free

Hook 2 -

And capture me again, take me ransom from within
Even if we just pretend, this will never end, just
capture me again

Bridge-

Sentence without end, arrest and take me in
To where it all began

Hook 2 -
