

She's A Live Wire-

Verse 1-

So many faces, she tries everyday just to make it
To find someone just to be friends, 'cause in the
end, it's better that way

One year passes, it's just one that's closer to
havin'

The face to face that she turns from, and it's
why, she's on the run

Can't find, anyone around, it all seems to just let
her down

Hook-

'Cause she's a live wire, in a small town

She can't run away from the vices she found

She's a burnin' fire, and she can't cool down

One day she'll leave it behind, but for now

She's a live wire

Verse 2-

She dreams of the day when, a love comes
crashin' just like lightning

A man that will take her away, she can't stay, in
this town no more

It's predestined, her heart lies somewhere else
that's watin'

She felt it since she was a child, and now it's
time, for her heart to fly

Can't find, anyone in this town, it all seems to
just let her down

Hook-

'Cause she's a live wire, in a small town

She can't get away from the vices she found

She's a burnin' fire, and she can't cool down

One day she'll leave it behind, but for now
She's a live wire,

Bridge-

Give me, just one chance to try
Don't let this dream just die
Let me show you who I am inside, take me
away tonight

Hook-

Can't find, anyone in this town
It all seems to just let her down, 'cause she
knows that
She's a live wire, in a small town
She can't get away from the vices she found
She's a burnin' fire, and she can't cool down
One day she'll leave it behind, but for now

She's a live wire
